

CLIENTS OBJECTIVES

Our clients wanted a company that could deliver the full, turn-key solution that encompassed the entire project lifecycle, from the initial consultation through to the final touches. They were looking to refresh their tired and dated home into something spectacular including, a single storey extension that could accommodate a new open plan kitchen, a renovation to their existing conservatory to make liveable all year round and then a refresh and complete internal renovation. Given the challenges posed by COVID-19, the client also emphasised the importance of reliability and professionalism.

WHAT WE DID

Following from our build consultation, the client preferred our recommendation of a traditional style roof with contemporary glazing to maximise the visibility of the gardens. We also built a further extension of original stone finish to house the new extended kitchen. We were also excited to be able to save the client's favourite climbing wisteria feature plant which they thought they may have had to lose to accommodate the kitchen extension. The interior boast natural wood features, intuitive storage solutions and farmhouse inspired accents like the library ladder and the Shaker-inspired kitchen, making for the ideal countryside retreat.

"Having everything conveniently under one roof made the process significantly easy. The team proposed designs we hadn't even considered, pushing the boundaries and thinking outside the box. We are so pleased with the result, breathing life into our vision in ways we hadn't imagined."

BEFORE

The careful work we carried out on this project, to extend and renovate this incredible Grade II-listed home, was a genuine pleasure.

SERVICES SELECTED:

- Build Consultation & Review of clients architectural design

PROJECT TIMELINE:

10 months

CHALLENGES / SOLUTIONS:

To save the client's favourite climbing wisteria feature plant which they thought they may have had to lose to accommodate the kitchen extension.

AFTER

“My experience with ProBuild360 was wonderful. From the initial consultation to the final touches, they provided a turn-key solution that was exactly what we needed.

In the midst of the challenges brought on by COVID-19, ProBuild360 stood out as a beacon of reliability and professionalism.

One of the most impressive aspects of working with ProBuild360 was the team. Matt, Wes, Bahram and all of the other individuals involved really made me feel confident and that I could trust in their judgement. Having everything conveniently under one roof made the process significantly easy. The team proposed designs we hadn't even considered, pushing the boundaries and thinking outside the box. We are so pleased with the result, breathing life into our vision in ways we hadn't imagined.

Throughout the entire journey, stress was virtually non-existent.

Communication was impeccable, with the team always just a phone call away. Their dedication to keeping us informed and involved every step of the way was truly commendable, creating a sense of trust and confidence in their abilities.

We were so impressed with their work that we've already taken on a second project with ProBuild360. Their commitment to excellence and innovative approach makes them a standout choice for anyone seeking a transformative building experience with a trusted and reliable company.

I can't recommend ProBuild360 highly enough!”
